Library-Management-System

- **Technologies** : Android Studio, Java, SQLite, XML.
- **Description** : An Android app that manages library operations including book, member, and lending records using a local SQLite database with full CRUD capabilities.

Emergency-Assistance

- **Technologies** : Java, Android Studio, Google Maps API, Fused Location Provider API.
- **Description** : An Android application that tracks the user's real-time location, displays it on a map, and enables quick emergency calls.

ADDITIONAL INFORMATION

- **Technical Skills:** Programming&development,Web technologies,Database management,Mobile app development
- **Soft skills:** Project management, Teamwork, Time management, Effective communication, Leadership
- **Languages:** English, Tamil
- **Certifications:** Data Analysis with Python
Introduction to Data Analysis using Microsoft Excel
Build a free website with WordPress
- **Extracurricular activities:**
Member, IEEE Rajarata university of sriLanka
Worked as a content writer and graphic designer for IEEE student projects
Member, ZERO plastic, Rajarata university of sriLanka
Member, Hiking Club, Rajarata university of sriLanka
